As an enthusiastic Computer Science undergraduate with a strong foundation in software development and data structures, I am seeking an internship opportunity to apply my technical skills and passion for innovation. Eager to contribute to real-world projects, I aim to deepen my understanding of software engineering. My goal is to leverage my problem-solving abilities and collaborative spirit to both learn from and contribute meaningfully to your team, gaining practical experience that will shape my future career in the technology sector.

EXPERIENCE

APPLICATION TECHNICIAN / DIRECTOR

MAW Installs

2022 - PRESENT

Founded and operate a successful subcontracting business specializing in the installation of window tints and vinyl advertising materials. Key clients include Cushman & Wakefield and Transdev. Responsibilities encompass direct client liaison to assess needs and deliver tailored solutions, precise installation of materials, and comprehensive management of business operations, including invoicing, accounting, and financial oversight. Demonstrated ability to manage multiple projects simultaneously while maintaining high standards of quality and client satisfaction.

APPLICATION TECHNICIAN

Blindlight PTY LTD | Epping, NSW

2020-2022

Effectively installed vinyl prints for a diverse range of clients, demonstrating adaptability and precision in various project settings. Played a key role in the financial aspect of the business by assisting in the drafting and dispatching of invoices for over 20 different clients, showcasing strong attention to detail and organizational skills in managing multiple accounts

WOOLWORTHS TEAM MEMBER

Woolworths | Carlingford

2015 - 2020

Tasked with daily generation of fill reports and the timely completion of allocated tasks, demonstrating consistent reliability and efficiency. Frequently collaborated with team members to strategize and implement effective methods for meeting daily targets. Contributed to maintaining store operations both in stocking shelves and assisting in dock work, ensuring a welcoming environment for customers and team members alike.
